FOR THE FATHER

“For fathers, this program offers the chance to bond with your child on many levels and build a loving and trusting relationship that will last a lifetime. This special relationship will help both of you during the often troublesome middle and high school years and may even influence important decisions later in life. The program also offers you the opportunity to meet and interact with other fathers and their children for a truly unique learning experience.”

FOR FATHER AND CHILD

“Together, you’ll see and do things that you otherwise might not have the opportunity to do such as; camping all over the beautiful State of Ohio, canoeing, horseback riding, rock climbing, building and racing a pinewood derby car, going to a formal father/daughter dance, playing games, singing songs, telling stories, and many, many, more fun activities. Together, you’ll also learn many things about Ohio, about nature, about history, about yourselves, but most importantly, about each other as you grow and learn together! Don’t miss out on this amazing once in a lifetime opportunity.”

FOR THE CHILD

“For children, the program offers an opportunity for a wide and diverse circle of friends that often become more like a large family. The older kids usually take on the leadership roles, helping and teaching the younger kids while the younger kids look up to the older kids for guidance like they would a big brother or sister. The program helps the children build self-esteem, develop a strong sense of identity, of belonging, and of personal accomplishment. The kids also get to witness first hand how other fathers and their children interact with each other.”
